THE RENAL PROJECT

DOCUMENTATION

Technology in use:
1. PHP
2. MySql
3. HTML & CSS
4. Javascript
5. jQuery
6. Bootstrap
7. Fontawesome

Project Link: https://github.com/amritlekhuppal999/RenalProject

LOGIN:
- Dropdown to select user type {admin/doctor/staff}.
    1 is for Admin, 2 is for Doctor, 3 is for Staff.

- For admin login:
    username: first_admin
    password: 123456789

- For doctor login:
    username: doc_strange
    password: 123456789

- For staff login:
    username: staff_1
    password: 123456789

REGISTER:

- Only Admins can be registered from here because rest have to be created by admin.

- 4 fields: name, email, phone_no, password.

Upon Registering or Login, session starts, SESSION variables are set.
- The session variables are:
       userid, email, name, userType.
-Logout destroys them.

THE INDEX PAGE:

- There are two navbars:
       -Side Nav
       -Top Nav
  And a central region for pages to load.

- Side Nav has 5 options:
       - Admin {add, view}
       - Doctor {add, view}
       - Branch {add, view}
       - Staff {add, view}
       - Patient {add, view}

Admin

- Has two options : add and edit.
- Add page opens up a form to add new admin or update existing admin.
- Edit page shows a table of all the existing admins.

Add admin:
- A form with 6 fields.
- Upon clicking submit/add, the data is carried to the server where it is stored in the database.

View Admin:
- A table with the same details on display.
- Provides option to edit the record.
- Upon clicking the edit option, user is taken back to the add admin page where now an update form appears instead of an add form.
- Upon updating, user is taken back to the view admin page.

Update Admin:
- same process as add admin but with update option.

Doctor:
- Added by ADMIN
- Add, update, view is same as the admin.
- Is allowed to view only the patient section.
- Rest is hidden from it.

Branch:
- Added by ADMIN
- Add, update, view is same as the admin, with slight less fields
- From here admin can add staff.

Staff:
- Added by ADMIN
- Add, update, view is same as the admin
- Staff registers patients.
- can view only patients.

NOTE: THE Project only shows the very basic of functionality.
It can be improved a lot.
Things that are remaining:
1. Pagination
2. Live Search
3. User Profile
4. Email verification.
